

READY-TO-USE PIZZA SAUCE: PREP PROCEDURES

BUCKET PREP

1 Pour sauce into a clean and sanitized sauce bucket.

2 Consider using a sauce extractor to ensure all sauce is removed from the bag.

3 Date buckets according to the Shelf Life Guide.

BOTTLE PREP

1 Pour sauce into a sauce bottle. Sauce bottles must be prepped directly from sauce bags.

2 Date sauce bottles according to the Shelf Life Guide.

*Open enough packs of sauce for 3 to 4 hours of business into clean and sanitized tubs.
