Stretching How-to Videos

Sauces and Cheeses

Toppings

Topping Information

1. Using your pump apply 0.3 oz. of butter-flavored oil - (one pump.)

2. Using a silicone brush, evenly coat the bottom and sides of the pan.

6. Place the dough in the pan and continue to stretch the dough using the Hand Tossed stretching technique until it is the full size of the pan bottom.

Do not cover the sides of the pan.

7. Seal the dough to the edge of the pan by pulling the dough from the inside of the pan out to the edges to ensure that the dough is completely to the edge.

8. Using your fingers, lightly dock the pizza for contact all the way around.

How to Gravity Stretch

Thumbs up!

4. With a circular motion, use the weight of the dough to evenly stretch it to 60% of the size of the pan.

Place the dough in the pan with the sticky side down.

Do not form a rim!

9. Apply 4 oz. of provolone cheese evenly covering all the way to the sides of the pan.

Remember 4-3-3

10. Using a squeeze bottle apply 3 oz. of pizza sauce.

Typically 10 swipes in a horizontal motion.

11. Apply 3 oz. of pizza cheese.

Sauce will be visible through the cheese.

Sauces and Cheeses

Toppings

Topping Information

Main Menu

 The DJ Dough Spinner can help stretch Pan dough being used for Stuffed Crust. *If stretching with a DJ, follow the Hand Tossed procedures detailed in the optional DJ Operating Guide job aid. Once you've removed the dough from the bottom drum, pick up at STEP 3 in this resource.*

1

Place a medium/12" disk inside the Stuffed Crust Ring. Place a Pan dough ball in cornmeal, lightly dusting both sides. It is recommended to stretch the dough with the soft/sticky side up.

2

Do NOT form a rim. Position fingers so they are hanging over the edge of the dough. Slightly flatten the edge, rotating the dough to promote an even thickness around the edge.

3

With your hands positioned over the edge of the dough, *continue with the normal edge stretching procedure*. Be sure to raise your thumbs slightly to keep them off the center of the dough.

4

Stretch dough to 14". Use the Stuffed Crust Ring as a size comparison if needed.

5

Place dough on top of disk and Stuffed Crust Ring combo. The edges of the dough should be resting on the *ridge of the ring*, as shown above.

6

Place **FOUR**, equally spaced string cheese pieces tightly against the crease formed by the ring and the disk.

7

Fold the dough from the outside edge of the ring over the string cheese.

8

Rest thumbs outside the ring. Using fingers on both hands, press fingers firmly to seal crust.

9

Rotate the disk/ring combo and repeat the sealing process until the entire pizza has sealed crust.

10

Place the Pie Press Crimper into the center of the pizza. Push down in the center to ensure seal is secure. This will fit *snugly* in defined crust.

11

Using the finger holes, gently rock the Pie Press Crimper back and remove.

12

Check to ensure there are no openings on the seal. If you notice an opening, crimp using your hands. Remove the ring.

13

Using 12" Hand Tossed portions, sauce edge to edge, ensuring to cover the seal. Avoid saucing on the crust to prevent scorching.

14

Apply cheese and toppings following 12" Hand Tossed portions. Place in oven.

POST BAKE

15

Place in 12" premium black box with **NO** liner. Cut into eight slices. Apply 0.4 oz of Garlic Oil Blend to the crust.

16

Apply 0.25 oz of Parmesan Shake-On to the crust.

Sauces and Cheeses

Toppings

Topping Information

Main Menu

Build Your Own Product Itemization

	Toppings	Optional
Sauce	Pizza Sauce Alfredo Garlic Parm Honey BBQ Ranch	
Items placed under pizza cheese	Feta Spinach Philly Meat	Garlic - Chopped
Bottom Cheese	Pizza cheese American (slices)	
Flat Meats	Pepperoni Ham Chicken	
Vegetables	Onion Green Pepper Mushroom Pineapple Black Olives Banana Peppers Jalapeno Peppers	Green Olives Green Chilies
Bulky Meats	Italian Sausage Beef Bacon	
Top Cheese	Extra Cheese Cheddar Cheese Blend Shredded Provolone Shredded Parmesan/ Asiago blend	
Items placed on top of cheese	Tomatoes	Anchovies
Items applied post-bake	Hot Buffalo Sauce	

Build Your Own Product Itemization

- Build Your Own Pizzas on any crust may not contain more than 7 toppings. Light portions are considered 1 topping and extra portions are considered as 2 toppings toward the maximum. Handmade Pan Pizza and New York Style include Shredded Provolone in the standard build that counts as one topping towards the 7 topping maximum.
- Toppings should be applied in the following order for all BYO products including pizzas:

Light and Extra Portions

- Light Topping** is defined as a **25% decrease** in the topping portion ordered (Multiply topping amount by 0.75)
- Extra Topping** is defined as a **50% increase** in the topping portion ordered (Multiply topping amount by 1.5)
 - When the topping ordered is on a 1-item pizza, the **Extra** portion is **50% more** than the 1-topping portion.
(**Example:** Extra Pepperoni = 1 item, use 1 topping portion / 40+20 = 60 Pepperoni)
 - When the topping ordered is on a 2-3 item pizza, the **Extra** portion is **50% more** than the 2-3 topping portion.
(**Example:** Extra Pepperoni + Mushrooms = 2 items, use 2-3 topping portion / 32+16 = 48 Pepperoni)
 - When the topping ordered is on a 4+ item pizza, the **Extra** portion is **50% more** than the 4+ topping portion.
(**Example:** Extra Pepperoni + Mushroom, Onion, Green Pepper = 4+ items, use 4+ topping portion / 24+12 = 36 Pepperoni)

Half/Half Pizzas

- Pizzas ordered as half cheese only will receive the **Cheese Only** portion on that half. And the half with toppings will receive the topping portion for that side (for example, a 14" half pepperoni pizza will receive half the one-topping portion, or 20 Pepperoni)

 - Which pieces need to be cut into **QUARTERS**
 - Which pieces need to be cut in **HALF**
 - Which pieces can be used **WHOLE** (no cut)
- Cut thawed chicken with a clean and sanitized plastic knife
- Place in a clean and sanitized makeline bin
- Cover with lid and date according to the Shelf Life Guide
- 1 bag = 13-14 orders of Loaded Chicken

Follow the sizing guidance shown here to help ensure consistency with orders of Loaded Chicken.

ASSEMBLY

Line a 12" disk with a 1/2 sheet of 12" x 12" parchment.

Place 6.0 oz of prepped/cut boneless pieces on the disk. Ensure there are minimal gaps to help with proper bake and product consistency.

Add toppings according to Standard. Place in oven to bake.

Main Menu

1. CHEESE

2.0 oz. Provolone

2.0 oz. Pizza Cheese

2. SAUCE

2.0 oz. Pizza Sauce
(apply sauce using sauce bottle)

NOTE: 1.0 oz. portion
for all other sauces.

CHEESE ONLY will receive an additional
1.0 oz. of pizza cheese on top of the sauce.

3. TOPPINGS

3-Topping MAX

TOPPING TYPE	1 TOP	2 TOP	3 TOP
Pepperoni and Ham	12	9	6
All Other Toppings	1.5 oz.	1.0 oz	0.7 oz.

All toppings placed on top of sauce.

Load Domino parallel to the oven opening to help ensure an even bake and prevent the product from getting pulled too early.

- ✓ 13-inch Side Box
- ✓ Sandwich Liner

Using pan grippers, grab the long side of the pan and remove from oven.
Remove Domino from the short side of the pan using black spatula.

POST BAKE

Using a rocker blade, make one straight cut in half.

Apply 0.3 oz. of garlic oil blend evenly over the entire surface.

Portions

Procedures

Prepping

Main Menu

Apply 0.2 oz. of butter flavored oil to the bottom of the pan. Spread evenly with approved brush.

Apply 0.3 oz. of parm shake-on evenly on top of the butter flavored oil.

DOMI-KNOWS TIP!
Determine how many Domino you are going to prep. Prep each pan with butter flavored oil and parm shake-on before getting hands-on with the dough.

Use the pans as your measuring tool when stretching. Place a pan dough ball sticky-side down. No cornmeal!

Using a pizza cutter, cut the dough in half. Use the pans to help you make an even cut.

Grab one half of the dough with both hands and carefully transfer to one of your prepped pans.

Fit the dough to the bottom of the pan. Ensure there are no gaps between the dough and the walls of the pan. Lightly dock the dough to remove any air bubbles.

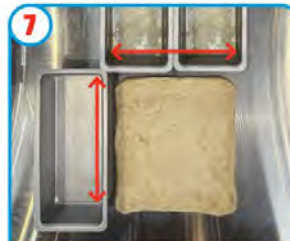

Stretch the top of the dough ball to the inside width of TWO pans.

Lightly press on the top part of the dough to help it stick to the table. This will help the dough stay secure during stretching.

Stretch and shape the dough to the inside length of ONE pan. Maintain an even thickness during stretching.

Square off corners. Use the pans as a guide to make sure the dough is stretched to the correct size.

Repeat Steps 9 and 10 for the other half of the dough.

Cover your prepped Domino with a lid or an empty pan. Date using the same shelf life as prepped bread sides and pan pizza. Stack pans to a maximum of 6 high.

Day 1-4 dough - 4 hours

Day 5-6 dough - 2 hours

SANDWICH: ASSEMBLY PROCEDURES

1

Place a silicone baking mat and 12" x 12" parchment on a 12" disk.

2

Apply 0.20oz. of butter flavored oil directly to the parchment.

3

Carefully open bread and place open-face on top of butter flavored oil.

4

Apply toppings evenly according to Standard across the entire bread.

5

Once topped to Standard, place in oven to bake.

ENSURE YOUR PREP SURFACE IS CLEAN AND SANITIZED. WASH HANDS AND APPLY GLOVES.

PENNE PASTA

1

Place pasta into sauce bottle liner or approved prep bag. Ensure each prepped bag contains 5.5 oz. of pasta.

2

Remove excess air from the bag. Twist and tuck the end of the bag to keep fresh.

3

Place filled bags into a clean and sanitized bin. Date bin as "In-Use" according to Shelf Life Guide. Individual bags do NOT need to be dated.

GRILLED CHICKEN

1

Place grilled chicken into sauce bottle liner or approved prep bag. Ensure each prepped bag contains 2.0 oz. of chicken.

2

Remove excess air from the bag. Twist and tuck the end of the bag to keep fresh.

3

Place filled bags into a clean and sanitized bin. Date bin as "In-Use" according to Shelf Life Guide. Individual bags do NOT need to be dated.

NOTE: BINS DO NOT NEED TO BE COVERED WHEN PRODUCT IS PREPPED INTO INDIVIDUAL BAGS.

BREAD SIDE PROCEDURES: Bread Bites (16 & 32pc)

1

Line pan with baking mat and 12" x 12" parchment.

2

Place Pan dough on table without cornmeal and square off edges. Cut dough ball in half.

3

Shape each half to size and vertically cut 8 even slices.

4

Horizontally cut the 8 even slices in half, making a total of 16 bites.

5

Place 11 bites around the outer edge of the pan and 5 on the inside. Ensure the pieces are not touching.

6

Cover with 2 disks or 3 screens. Place in oven to bake.

REMINDER: Prepped Bread Bites *MUST* be covered and held at room temperature - they may not be held under refrigeration at any time. Date prepped Bread Bites according to the Shelf Life Guide.

BONELESS CHICKEN & WINGS

- 32 pc- transfer both 10"x16" parchments to 12" pizza box
- Place parchment and chicken in box
- Wings: Add sauce

Size	Box	Wing Sauce (oz)
8 pc	9" side	2.0
10 pc	9" side	2.5
16 pc	13" side	4.0
32 pc	12"pizza	8.0

SIZING BONELESS CHICKEN

☒ **Acceptable Size**
Larger than a Pepperoni

Discard crumbs and pieces that are smaller than ½ a pepperoni.

See specialty chicken job aid for additional prep.

WINGS: PREP PROCEDURES

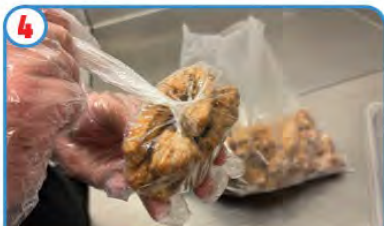

1 Ensure prep surface is clean and sanitized. Wash hands and apply gloves.

2 Place 8 wings into a sauce bottle liner or approved prep bag.

3 Remove excess air from the bag.

4 Twist and tuck the end of the bag to keep fresh.

5 Place filled bags into a clean and sanitized bin.

6 Date bin as "In-Use" according to Shelf Life Guide.
NOTE: individual bags do NOT need to be dated.

NOTE: THE BIN DOES NOT NEED TO BE COVERED WITH CHICKEN BEING PREPPED INTO INDIVIDUAL BAGS.

WINGS: ASSEMBLY PROCEDURES

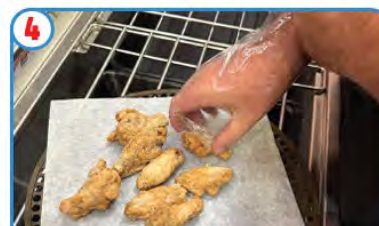

1 Line a disk with 12" x 12" parchment.

2 Empty the wings from the prep bag onto the disk. Do not touch wings with bare hands.

3 Turn the prep bag inside-out, being careful not to touch the inside of the bag.

4 Using the bag as a barrier between your hand and the wings, arrange the wings on the disk.

5 Once properly spaced, discard the prep bag. Do not touch the wings with bare hands.

6 Place wings in oven to bake.

NOTE: IF WING FALLS INTO THE PIT. DO NO USE. IT MUST BE DISCARDED.

BONELESS CHICKEN: PREP PROCEDURES

- Place boneless chicken in a clean and sanitized bin.
- Cover bin with a lid. Date according to the Shelf Life Guide.

NOTE: GLOVES ARE NOT REQUIRED WHEN PREPPING OR ASSEMBLING BONELESS CHICKEN.

Main Menu

1. Review all crust types in the middle of the grading tool, use the instructions under that specific crust type to grade your pizza correctly.
2. Rim . Use the bottom right part of this tool to determine your correct rim height. Keep the tool flat on the box and push it to the edge to see if it is the right height.
3. Size. There are 2 parts of size for all crust types except Gluten Free and Thin Crust. The first part of size is making sure the pizza is the correct size around. Flip your tool on its side, and use the part labeled #3 to check your size. This part should NOT be able to pass through the sides of the box. The little slit in the tool is for the box to fit in. The 2nd part of size you will come back to at the very end when you cut your slices open.
4. Portion / Placement -Time to put your eyes to use, decide if the pizza has the correct amount of toppings, as well as making sure there are toppings on each bite / not center loaded.
5. Placement using the tool- check the sauce border / rim width using the #5 spot on the tool. Push the tool all the way against #3. Make sure the sauce & cheese border starts in the lines it is supposed to.
6. Bake , make sure no bubbles are bigger than half a pepperoni. Use #6 to grade this. Then, flip over every other slice and judge the bottom bake. It should be no lighter than the garlic oil, and no darker than the Cinna-magic for color range.
7. Part 2 of SIZE . Use your box cutter blade to cut open the slices. Always start by cutting from the crust, down to the tip of the slice. And, cut AWAY from you! Once all your slices are cut, use the ruler on the left side of the tool (#7) to make sure your center rise is what it should be.

1 HAND TOSSED & NEW YORK

Cut Test Center Rise

Tools needed: razor blade, pizza evaluating tool

Target center rise: $\frac{1}{2}$ " (acceptable: $\frac{3}{8}$ " – $\frac{5}{8}$ ")

Cut test: flip over every other slice, cut the turned-over slices in half, starting at the crust and ending at center of the pizza.

Purpose for performing regular cut tests:

1. Evaluate center rise for texture.
2. Evaluate air pockets for taste.
3. Ensure all pizza makers make great pizzas.

Why is a consistent center rise necessary?

- A thin center creates a greasy, not very scrumptious pizza.
- A lack of center rise causes pizza to fall apart.

What causes a pizza to have a thin center?

- Improper edge stretching.

Cut Table| #CUT-14 ©2011 Domino's IP Holder LLC

Back

Grading Tool

Next

Cut Test **Air Pockets**

Why is evaluating air pockets necessary?

- Optimal air pockets provide a light, airy, bread-like texture.
- Optimal air pockets create a scrumptious taste.

What prevents air pockets from forming?

- Cold dough
- Under-proofed dough
- Oven settings incorrect (belt speed too fast)
- Incorrect oven finger arrangement
- Dirty oven fingers
- Cold sauce or frozen cheese
- Improper pizza making techniques (for example, applying too much pressure)
- Dirty pizza screens or disks.

Back

Grading Tool

Next

Pan Pizza Cut Test **Center Rise**

Tools needed: razor blade, pizza grading tool. For Pan Pizza cut tests, always use a pizza with 3 or more toppings.

Cut test: flip over every other slice, cut the turned-over slices in half, starting at the crust and ending at center of the pizza.

Purpose for performing regular cut tests:

1. Evaluate for 1/2" consistent center rise.
2. Evaluate breadlike air pockets, crumb structure.
3. Ensure oven settings are correct.

Why is a consistent center rise necessary?

- A thin center creates a greasy, not very scrumptious pizza.
- A lack of center rise causes pizza to fall apart.

What causes a pizza to have a thin center?

- Improper gravity stretching or over-proofed dough.

Grading Tool

PERFECT IMAGE

All apparel should be clean and in good condition.

SHIRTS

Wear a Domino's-approved uniform.
If you wear an undershirt, it can be gray, white, or black. No patterns please. Feel free to wear a sweatshirt or hoodie as an undershirt, just make sure any strings are tucked in.
If you are working with food, roll up those sleeves past your elbow.

APRONS

Wear them when you are working with food! Don't wear them outside or in the restroom.

BRACELETS, WATCHES, & RINGS

Don't wear bracelets or watches when making food. You can wear a simple ring, no stones, that can easily be washed when washing your hands.

SHOES & SOCKS

Socks must be worn. Shoes need to cover the whole foot. No open toes or holes.

HATS & HAIR

Everyone must wear a Domino's-approved hat. If hair touches the shirt collar, it needs to be restrained behind the shoulders.

PIERCINGS

Keep it simple! Dangle earrings and large hoops are not allowed. Any facial piercings should be a small stud or hoop (3/4" or 1.90 cm).

NAILS

If you have long nails >1/4" (0.6 cm), painted nails, or artificial nails, wear gloves when preparing food.

BOTTOMS

IN:

Blue Denim
Black Denim
Black Pants
Domino's Joggers

OUT:

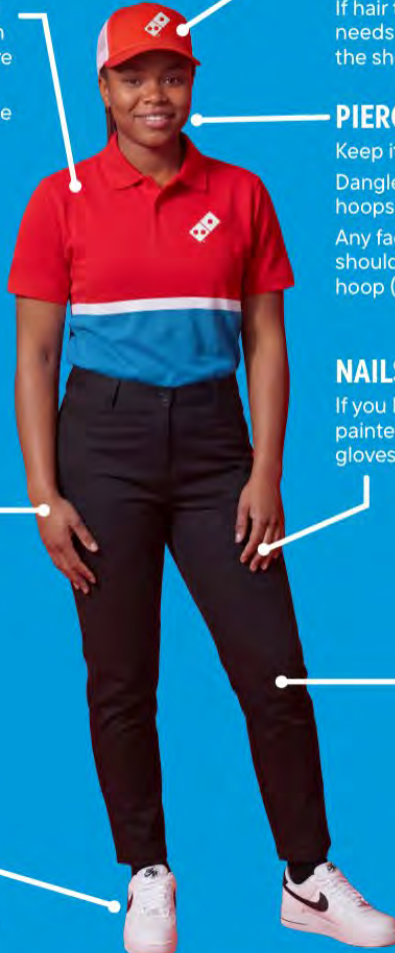

Sweatpants
Leggings
Athletic materials
Basketball shorts
Short shorts - anything more than 4" (10 cm) above the knee.

JACKETS

Wear solid black with minimal clothing brand logos. Domino's logos are allowed.

FACIAL HAIR

Keep it neat, and shorter than 1" (2.5 cm)

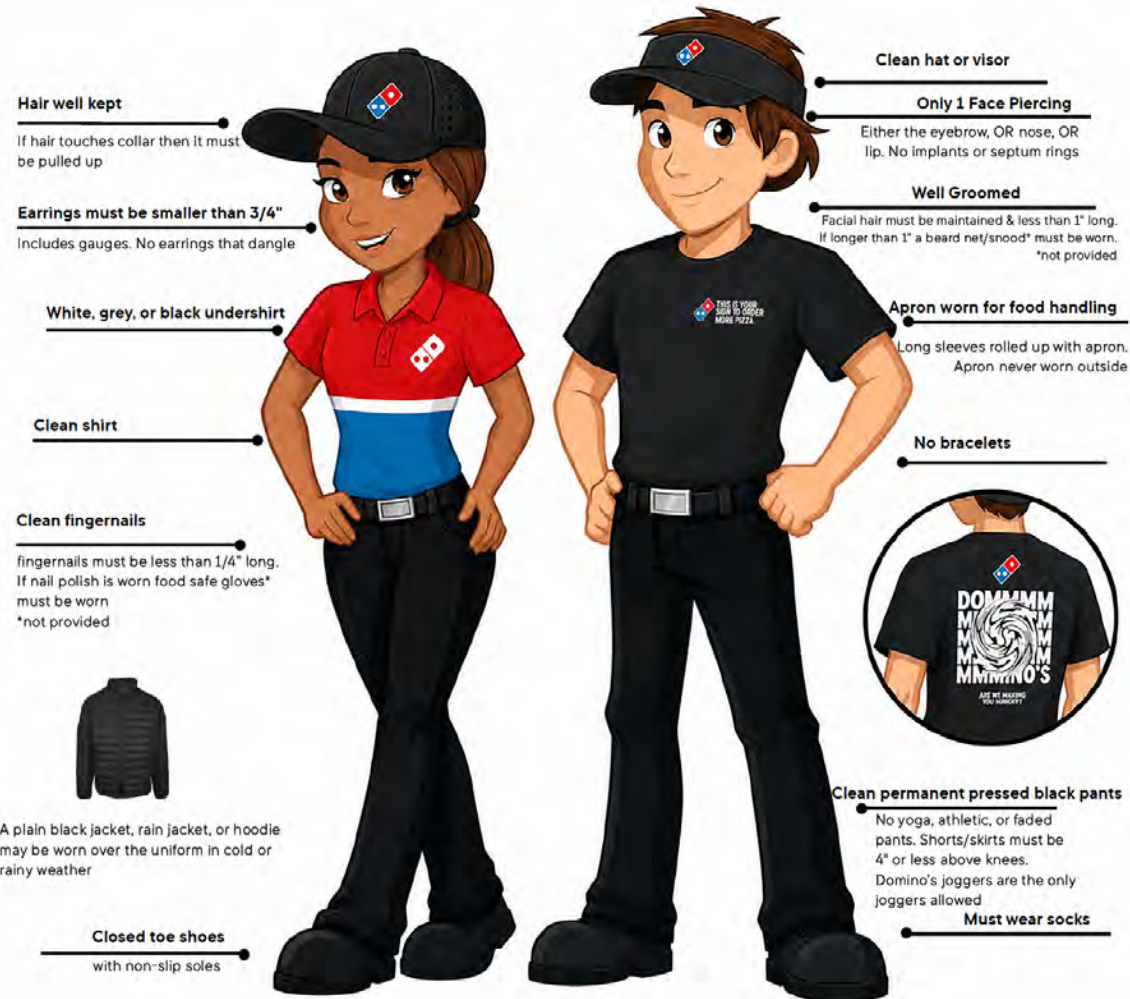

NOTE: For all standards, please reference the Operating Standards on PieNet.

The value and integrity of the Domino's brand is extremely important and as such, Domino's has adopted Standards to be followed by and enforced under the supervision of franchisees and the managers of corporate stores to the extent permitted by applicable law. The Standards are critical to Domino's brand image. Franchisees may grant an exception to these apparel and appearance Standards as an accommodation based on religious, cultural, medical, or other reasons required by applicable law. Health standards governed by federal, state, county, and city governments and store personnel must adhere to any applicable law, and requirements in excess of the Standards.

Franchisees have the right to have stricter standards.

Next

UNDERSHIRTS

Undershirts can be solid white, solid black, or solid gray. Any style can be worn – short sleeve, long sleeve, crewneck sweatshirts, or hoodies.

If preparing food, long sleeves need to be rolled up to the elbow. Any hoodie strings need to be tucked inside of the undershirt.

Back

Next

BOTTOMS

Jeans are permitted in blue or black denim. See below for acceptable shades of each color

ACCEPTABLE

ACCEPTABLE

Jeans cannot have any distressing such as rips, holes, frayed hems, etc. They also cannot be embellished.

Athletic materials are not allowed. This includes basketball and/or running shorts, yoga pants, leggings, sweatpants, and joggers.

NOT ACCEPTED

Back

Next

Main Menu

FOOTWEAR

Shoes need to cover the entire foot and be slip resistant.

Shoes that expose large portions of the foot and toe shoes are not accepted.

JACKETS

Outerwear should be solid black, with minimal logos. Black jackets with the Domino's logo are accepted.

Hoodies are not acceptable as outerwear. Excessive logos or additional coloring is not allowed.

Back

Next

Apparel and Appearance

The value and integrity of the Domino's brand is extremely important and as such, Domino's has adopted Standards to be followed by and enforced under the supervision of franchisees and the managers of corporate stores to the extent permitted by applicable law. The Standards are critical to Domino's brand image. Franchisees may grant an exception to these apparel and appearance Standards as an accommodation based on religious, cultural, medical, or other reasons required by applicable law. Health standards are governed by federal, state, county, and city governments and store personnel must adhere to any applicable law, and requirements in excess of the Standards.

Apparel

- A. Approved Domino's logo apparel may be discontinued and new approved apparel added from time to time.
- B. Store personnel must only wear apparel with the Domino's logo while working or while going directly to and from work at the store.
- C. Store personnel must not enter any national or regional pizza competitor restaurant while wearing apparel with the Domino's logo except while making a delivery for the store.
- C. Franchisees must determine if their store personnel are standardized in a single approved apparel style or if they allow a variety of approved apparel styles within their store. Franchisees may also seek a variance for use of their own apparel style, including shirts.

Shirts

- A. Domino's-approved shirts that are properly fitted and in good condition must be worn.
- B. Approved shirt options for store personnel include those offered on CNA Marketplace and approved special promotional shirts.
- C. An undershirt, sweatshirt, or hoodie may be worn under the logo shirt. Any undershirt, sweatshirt, or hoodie must be plain white, black, or gray. The undershirt, sweatshirt, or hoodie must be tucked into the waistband if longer than the logo shirt. Any strings from hoodies must be tucked in.
- D. If long sleeves are worn while on the makeline, the sleeves should be rolled or folded up to the elbow.

Bottoms

- A. Pants, shorts, skirts, and capris may all be worn. Bottoms may be blue or black denim. Bottoms made of other materials must be solid black. Sweatpants or athletic materials are not permitted. Bottoms must be in good condition without rips, tears, patches, distressing, or embellishments. The only athletic joggers permitted are the approved logo joggers.
- B. Shorts and skirts should be no shorter than 4" (10.2 cm) above the knee.
- C. The waistband of pants, shorts, skirts, and capris must sit at the natural waistline. Pant legs must not drag on the floor.
- D. Suspenders are not permitted.

Hats and Head Coverings

- A. Store personnel must wear a Domino's-approved hat, worn forward while working.
 - 1. Store personnel wearing a visor while preparing food products may be required to wear a hairnet.
 - 2. A hat is not required to be worn during meetings or classroom training sessions.
- B. A hairnet or du-rag may be worn under a hat. The du-rag must be solid black, have no visible markings, patterns or logos, and cannot have a tie that extends below the neck.
- C. Any gloves that are worn must be of a solid color and must be in good condition.
- D. Hijabs and turbans may be worn without a hat or visor.

Accessories

- A. Any nametags that are worn must be located on the right side of the shirt, vest, jacket, or apron.
- B. Nametags must not have fictitious or humorous names, and the name must be printed or engraved on the nametag rather than handwritten.
- C. Any pins that are worn must be located on the hat or visor. Any hat clips that are worn must be located on the brim of the hat or visor.

Shoes and Socks

- A. Shoes must cover the entire foot, be in good condition, and have non-slip soles (franchise store minimum requirement) or slip-resistant soles (corporate store requirement). Any laces must be tied.
- B. Socks or hose must be worn and shoes displaying toes or the shapes of toes are not permitted.

Aprons

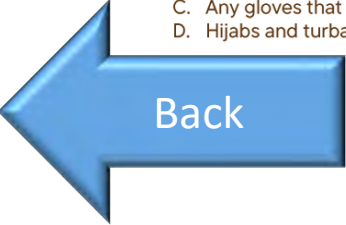

- A. Store personnel involved in preparing or handling food products (including prepping and unpackaging ingredients and making, cutting, and boxing food products) must wear an approved Domino's apron or solid black apron that is clean, worn full-length, and tied. Aprons may not be worn outside the store.

Jackets and Gloves

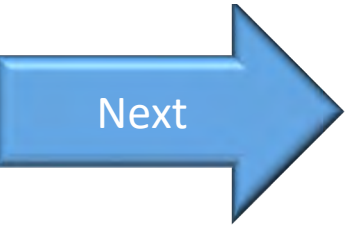

- A. Outerwear must be solid black, with no stripes, designs, or embellishments and in good condition. Clothing brand logos should be minimal. Black outerwear with Domino's logo may be worn.
- B. Any gloves that are worn must be of a solid color and must be in good condition.

Non-Store Personnel

- A. Non-store personnel visiting a store may wear store personnel apparel or appropriate business casual attire.
 - 1. Appropriate business casual includes logo shirts, dress shirts, and non-distressed pants or shorts. Non-store personnel must be able to identify their association with the brand to store personnel.
 - 2. If the Domino's in-store apparel shirt is worn, non-store personnel must adhere to Apparel and Appearance Standards.
- B. When preparing product, non-store personnel must wear an apron and a Domino's-approved logo hat.
- D. Non-store personnel must not enter any national or regional pizza competitor restaurant while wearing apparel with the Domino's logo.
- C. Personnel performing local store marketing may wear store personnel apparel or an appropriate costume.

Embroidery Guidelines

The recommended thread color for embroidering on logo apparel items is as follows:

Item	Recommended Thread Color
Polo Shirts	Dough 100 (Madeira 1071) is preferred or White (Madeira 1001)
Crewneck Shirts	Dough 100 (Madeira 1071) is preferred or White (Madeira 1001)
Hats and Visors	Any Color
Aprons	Dough 100 (Madeira 1071) is preferred or White (Madeira 1001)
Jackets	Dough 100 (Madeira 1071) is preferred or White (Madeira 1001)
Logo Embroidery	- Red (Madeira 1146) - Blue (Robinson-Anton 5801) - Dough 100 (Madeira 1071) is preferred or White (Madeira 1001)

The recommended embroidery font, font size, and placement are as follows:

Item	Recommended Font, Font Size, and Placement
Shirts	Name, title, and/or award in Futura or Arial font family .31" (0.8 cm) in size on the right chest area; Award, event, organization, or service time in Futura, Arial, or Helvetica font family .31" (0.8 cm) in size on the right sleeve area.
Jackets	Name, title, and/or award in Futura or Arial font family .39" (1 cm) in size on the right chest area; Award, event, organization, or service time in Futura, Arial, or Helvetica font family .39" (1 cm) in size on the right sleeve area.
Hats and Visors	Name, title, organization, and/or award in Futura, Arial, or Helvetica font family .31" (0.8 cm) in size on the on the side or back panels.
Aprons	Name, title, organization, and/or award in Futura or Arial font family .31" (0.8 cm) in size on the right chest area.
Logo Embroidery	Must be between 1.73" (4.4 cm) and 2.24" (5.7 cm) from point to opposite point.

Hygiene

- Due to the close personal contact with other store personnel and the public, personal cleanliness is of primary importance. Store personnel and their apparel must be clean and proper precautions must be taken to ensure that body odor is kept at a minimum. Store personnel must use perfumes and lotions with restraint given that working conditions call for close personal contact. Store personnel preparing food products should not wear lotions, creams, oils, etc., on their hands.
- Fingernails must be neatly trimmed, clean, and not extend ¼" (.6 cm) or more beyond the end of the fingertips. Nail polish and false fingernails are not permitted unless food grade gloves are worn.
- Store personnel must exercise reasonable personal hygiene so that exposed parts of the body (face, neck, arms, and hands) do not constitute a threat to exposed food products.

Hair

- Hair must be secured under a hat or be suitably restrained, such as with a hairnet or rubber band. Restrained hair that is not tucked under a hat must be restrained behind and off the shoulders. Visible dyed hair color must be permanent or semi-permanent; temporary sprays, glitter, chalks, or similar products that might flake, peel, or break off the hair on food or food contact surfaces are not permitted.
- Hair should be worn in a manner that is appropriate for working at the store.

Facial Hair

- Store personnel are permitted to maintain facial hair up to 1" (2.5 cm) in length that is clean and neatly trimmed. Store personnel must appear neatly groomed.
- Store personnel may be required to wear a beard net or beard snood while preparing food products.

Jewelry

- Store personnel may wear earrings, an inexpensive or DPL incentive watch, a simple necklace, medical alert jewelry, and a wedding ring.
 - Dangle earrings are not permitted.
 - Hoops and ear grommets/gauges (if any color) may not exceed ¾" (1.9cm)
- Any personnel engaged in food preparation may only wear a simple ring – such as a wedding band with no stones.
- Any facial piercing must have a simple stud or a small hoop.

Tattoos

Visible tattoos must not contain any images or words that are offensive in nature, including nudity, profanity, or any offensive references to race, national origin, religion, gender, age, or any other characteristic protected by applicable law.

Body Modification or Alteration

- Store personnel must make every reasonable effort to cover visible intentional body modification or alteration undertaken for the purpose of achieving a physical effect that disfigures, deforms, or detracts from a professional image. Examples include, but are not limited to, decorative skin implants, unnatural contact lens colors, brands or scarification, tongue splitting, and decorative tooth filing, plating, or engraving. Body modification or alteration resulting from traditional elective medical procedures (such as teeth straightening, hair replacement, cosmetic plastic surgery, gender transition surgery, etc.) is not included.
- Intentional body modification or alteration should not be on the face, neck, or hands, as these areas cannot be covered with apparel.
